

Manufacturers & Products

Engineered solutions for hazardous classified locations

ASCOM Wireless - world leaders in on-site wireless telephone and messaging systems that increase safety and productivity.

BEKA Associates Ltd - loop-powered indicators, fieldbus displays, counters, timers, clocks, batch controllers, beacons and sounders.

ECOM Instruments Inc - devices for plant maintenance, data collection and communication in hazardous locations.

European Safety Systems - high performance electronic sounders and flashing beacons for industrial, marine and hazardous environments.

Exloc Instruments Inc - purge and pressurization controls. Unique isolating barriers to enable PS2 keyboard and mouse operation in hazardous areas.

Extronics Ltd - devices for use in hazardous areas, including barcode scanners, digital cameras, wireless access points, mesh routers, and RFID tags & readers.

GECMA Components GmbH - Challenger operator stations, Explorer PC terminals, and related keyboards, pointing devices, card readers, etc.

GM International - galvanically isolated safety barriers for intrinsically safe industrial measurement and process control.

Newsom Gale Inc - Cenelectrex static grounding & bonding clamps and cables, monitors and safety interlocks. Static dissipative footwear testing stations

Record Electrical - moving coil analog indicators and meters for harsh industrial applications, including intrinsically safe models.

RGS Electro-Pneumatics Ltd - solenoid valves for pneumatic control systems and valve actuators with a choice of certification options.

RTK Instruments Ltd - alarm annunciator panels, beacons, relays, and other specialized devices for process status information.

- alarm beacons
- alarm sounders
- analog indicators
- annunciators
- ATEX conforming products
- barcode scanners
- batch controllers
- cell phones
- clocks
- counters
- digital cameras
- digital indicators
- explosion-proof devices
- fieldbus displays
- FM approved products
- galvanic isolators
- grounding & bonding
- hardened PCs
- HMI solutions
- intrinsically safe devices
- isolating safety barriers
- LED lamps & beacons
- loop-powered indicators
- maintenance tools
- mobile phones
- non-incendive devices
- panel meters
- PC terminals
- PDAs & pocket PCs
- PS2 device isolators
- pressurization controls
- purge controllers
- quadrature indicators
- safety barriers
- serial data displays
- setpoint stations
- solenoid valves
- static control systems
- totalizers
- UL approved products
- VoIP telephony & messaging
- WiFi access points
