

Partners & Products

Engineered solutions for hazardous classified locations

Airo Wireless - rugged intrinsically safe handsets incorporating GSM mobile phone, PDA functionality, and GPS for global enterprise communication solutions.

BEKA Associates Ltd - loop-powered indicators, fieldbus displays, counters, timers, clocks, batch controllers, LED panel lamps, alarm beacons and sounders.

ECOM Instruments Inc - devices for plant maintenance, data collection and communication in hazardous locations.

European Safety Systems - high performance electronic sounders and flashing beacons for industrial, marine and hazardous environments.

Exloc Instruments Inc - purge and pressurization controls. Unique isolating barriers to enable PS2 keyboard and mouse operation in hazardous areas.

Extronics Ltd - a wide range of productivity tools, wireless communication solutions, and UPS systems designed and certified for use in hazardous classified locations.

GM International - galvanically isolated safety barriers make industrial process measurement & control loops intrinsically safe. Models with SIL ratings.

Miratron Inc - remote radio control of critical plant and machinery in classified hazardous locations and extreme environments using hydraulic, electrical, and pneumatic systems.

Newson Gale Inc - Cenelectrex static grounding & bonding clamps and cables, monitors and safety interlocks. Static dissipative footwear testing stations.

Record Electrical - moving coil analog indicators and meters for harsh industrial applications, including intrinsically safe models.

RGS Electro-Pneumatics Ltd - solenoid valves for pneumatic control systems and valve actuators with a choice of hazardous area certification options.

RTK Instruments Ltd - intrinsically safe alarm annunciator panels, beacons, relays, and other specialized devices for process status information in hazardous plant locations.

Strongarm Inc - operator stations, HMI's, and versatile mounting systems to use in hazardous areas. Choose from pre-engineered solutions or fully customized designs.

- alarm beacons
- alarm sounders
- analog indicators
- annunciators
- ATEX conforming products
- barcode scanners
- batch controllers
- cell phones
- clocks
- counters
- CSA certified products
- digital cameras
- digital indicators
- electronic maintenance tools
- explosion-proof devices
- fieldbus displays
- FM approved products
- galvanic isolators
- grounding & bonding
- HMI solutions
- IECEx certified products
- intrinsically safe devices
- isolating safety barriers
- LED lamps & beacons
- LED helmet headlamps
- loop-powered indicators
- mobile phones
- non-incendive devices
- operator stations
- panel meters
- PC terminals
- PDAs & pocket PCs
- people & asset tracking
- PS2 device isolators
- pressurization controls
- purge controllers
- quadrature indicators
- RFID tags, readers & exciters
- safety barriers
- serial data displays
- setpoint stations
- solenoid valves
- static control systems
- totalizers
- UL approved products
- UPS Battery Backup
- WiFi access points
- wireless remote control
