- Suitable for harsh weather environments & indoor applications
- H.264, MJPEG multi-streaming
- Excellent low-light performance
- Integrated IR illuminators
- PoE

Rugged 1080p HD PTZ camera for low light applications

The PTZ-HD30-18-B is a high quality, high-definition color video camera with outstanding low-light performance. It has a 30x motor-driven optical zoom. The PTZ-HD30-18-B can provide multiple streams of high frame rate video.

The camera automatically switches to black and white and removes an IR cut filter to increase sensitivity in low light conditions. The integrated IR LEDs provide quality performance in complete darkness up to 200 meters.

The high speed pan, tilt, and zoom functions can be controlled automatically and precisely from anywhere using the click-to-point and preset view features of IVC's camera management software packages.

The camera is housed in a weatherproof enclosure rated IP66. It requires only a power source and Ethernet connection for installation.

Hardware Version B
